

Vity's
DESIGN

Vity's Collection

From the incredible passion for HARLEY DAVIDSON, takes shape my every single "iron." From a deep and meticulous study of materials, shapes and color, arise my accessories. I love to see them shine, I love to touch them and I always hope that all the love that I put into their design and construction is transmitted to you, my friends, who share with me a passion for the wind in your hair and that, at least when you're on your motorbike.

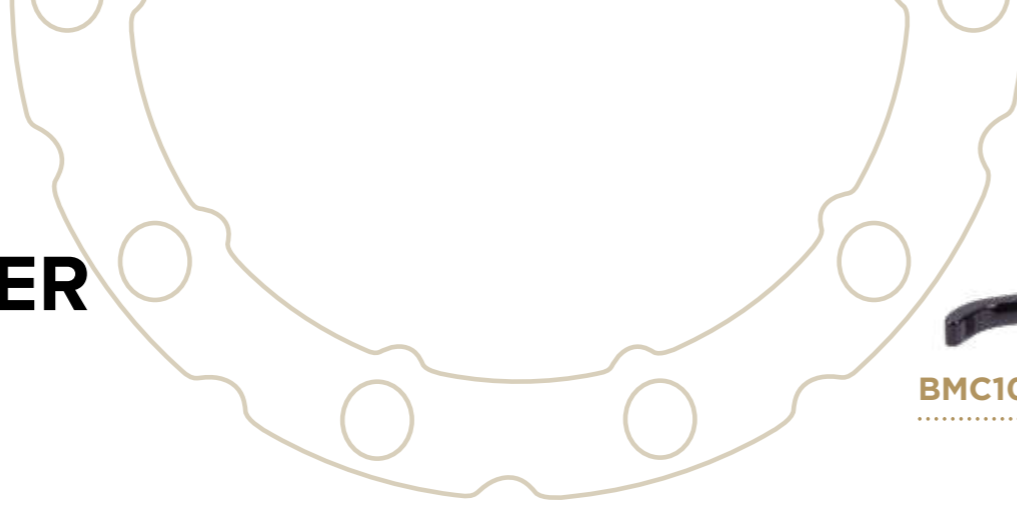

Vital. Modes

BRAKE MASTER CYLINDER MATTHEW

CNC Machined from billet aluminum and the compact size, is right for all handlebars 1".

Available in a many combinations of colors: black anodized - raw - brass - gold plated.

FEATURES:

- 5 axis CNC machined from billet aluminum
- Various finishings
- Easy to install
- Made in Italy
- Single Disc 9/16" (14,28 mm)
- Double Disc 11/16" (17,50 mm)

24kt Gold Collection

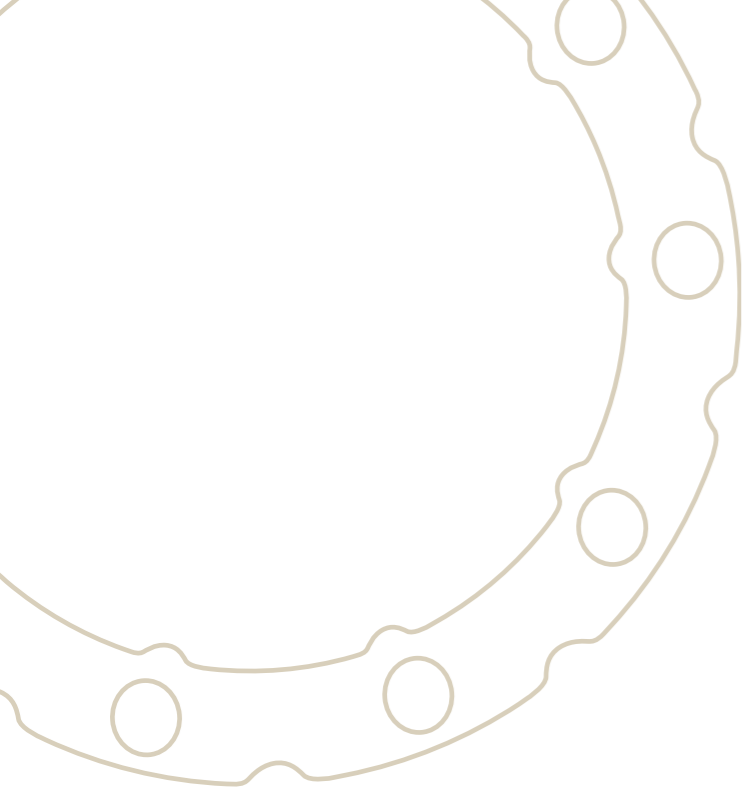

Always looking for new shapes / lines / colors.

Everytime we are around on the boutiques in the major fashion cities in Italy such as Milan, Rome, Florence where we could find some suggestions that can distinguish us from other brands of motorcycle accessories.

For a few years in the fashion and apparel clothing a luxurious material prevails "The GOLD".
Why not use this luxury material this color in our collections.

"Who has everything to need something more, or you distinguish or extinguish".
